

European Solar Energy Storage

Government subsidy for solar panel storage box in Tunisia

Overview

66,000 households are scheduled to take part in this initiative. A subsidy of 1,500 dinars will be granted for each PV installation. In addition, a subsidized loan of up to 3,000 dinars, will be granted to eligible households via their electricity bill.

66,000 households are scheduled to take part in this initiative. A subsidy of 1,500 dinars will be granted for each PV installation. In addition, a subsidized loan of up to 3,000 dinars, will be granted to eligible households via their electricity bill.

The Tunisian authorities have provided \$121 million for solar thermal and PV systems. The subsidies can cover up to 30% of initial investments in residential PV installations. The Tunisian government said that it has renewed the financing mechanism for its two national residential solar programs.

The ELMED interconnection project, which will link Tunisia to Italy by 2028, will play a key role in stabilizing energy supply, while supporting the energy transition in Tunisia and Europe. In addition, a network code has been drawn up to ensure the efficient integration of renewable energy.

The Tunisian government has renewed the financing mechanism for its two national residential solar programs. Société Tunisienne d'Electricité et de Gaz (STEG) has secured a TND 370 million (\$121.1 million) financing agreement from Zitouna Bank for the Prosol Residential and Prosol Elec programs.

The present Guide Summary provides useful information for investing in a solar PV or wind project in Tunisia. It gives a global Project type view of the context, the regulatory schemes and the procedures applicable to projects, as well as the investment framework known at the present date (May).

Both agreements mark crucial milestones for the Tunisian renewable energy strategy, as PROSOL ELEC Economique will finance residential photovoltaic (PV) systems for 65,000 middle-income households in the whole country. The energy transition on the roofs of the Tunisian middle class is thus.

The report acknowledges Tunisia's significant potential but notes that the country's post-COVID economic recovery continued to be moderate (real GDP grew by 2.5 percent in 2022) due to the current pace of economic reforms, resulting in regulatory barriers to growth. Additionally, the report.
