How many FSRU projects are there in Greece?

There are several FSRU projects at various stages of development throughout the country. One FSRU project, further expanding Revinthoussa's plant (in central Greece) current LNG capacity, is expected to be operational within this year, while another FSRU in Alexandroupoli (northern Greece) is expected to come online in 2023.

Does Greece need a smart meter?

Greece's target to shift from lignite towards renewable energy sources further propel such efforts. There is a lot of work to be done, given the lack of investment, which has led to a lack of smart meter penetration. Only 200,000 customers out of the 8 million being served by Greek grid operator HEDNO currently have smart meters.

Cuba Is Without Power, and There's No Quick Fix

Cuba has experienced four power outages in 48 hours, and its aging power grid and reliance on imported oil means there is no quick fix. Cuba's power grid is almost 50 years old, and after four prolonged island-wide outages in 48 hours, many are questioning whether the country can find a quick solution to its power crisis.
