Greenland dale power solution

Greenland dale power solution

Industrial UPS , Uninterrupted Power Supply

Dale's industrial UPS systems are designed specifically for use in high-intensity, high-impact industrial environments. UPS is important in environments where loss of power can impact the safety of people, or cause severe damage to structures and buildings, making them unsafe. Dale offers both AC and DC industrial UPS units to suit your needs.

BESS Register Interest

Dale Power Solutions have been at the forefront of Battery Energy Storage Solutions (BESS). We now have multiple products in our BESS portfolio which are suitable for a wide range of applications. Our latest lower capacity range is suitable for Commercial and Industrial purposes, ideal to provide battery capability on a smaller scale.

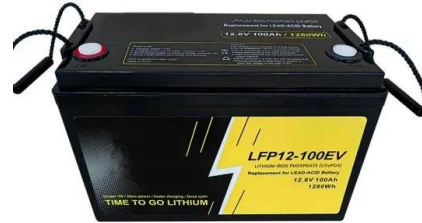

UPS and Generator Manufacturing , Dale Power Solutions

We have extensive experience in delivering customised solutions that meet industry-specific needs of the transport, marine, oil and gas and telecommunications industries, alongside delivering solutions to military and WIMES 3.07 specifications and standards. Our solutions are built to function in even the most rugged and harsh environments.

OFTEC Inspections

OFTEC inspections from Dale Recommended annually, we carry out your OFTEC inspection with our own team of OFTEC-registered engineers or OFTEC-registered technicians. We can ensure your compliance with industry regulations and OFTEC approved controls.

Canopy generators

Diesel generators are those that are run on diesel, and can typically be divided into two basic parts: a diesel engine and an electrical generator. Diesel generators can be used to provide power to places that are not powered by a power grid or can be used as a backup in case of a power outage. Natural gas generators

A year-end update from our CEO Gavin Hepburn

2 ???· As you can see, a lot is happening at Dale Power Solutions, and we are incredibly excited about what 2025 holds. We look forward to a special milestone in 2025, our 90th anniversary - a celebration of nine decades of delivering tailored solutions that keep operations seamless and critical power assets protected across industries.

BESS Projects

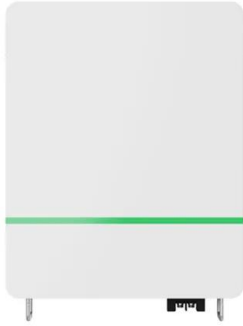

A telecoms company reached out to Dale Power Solutions to see if we could help them capture the excess renewable energy they were producing. The need. With 88KW of solar PV on their rooftop, their generation far outweighed their energy consumption. As things were, they sold their excess back to the grid for 5.5p per kWh.

Remote Monitoring

With remote monitoring you can identify power issues early reducing the risk of needing response solutions to downtime, power outages or blackouts. You can access and control vital statistics from your mobile devices, and make effective decisions quickly about your

equipment.

UPS Solutions , Dale Power Solutions

Industrial UPS. Industrial UPS are specifically designed for critical processes such as an oil rig or power plant but are also suitable for manufacturing when a break in production can be costly. They won't drop the critical load and can ...
