Greenvolt power Poland

Overview

Where is greenvolt power located?

Greenvolt Power and its parent, Greenvolt, developed the Oborniki PV plant in Wielkopolska, Poland. It consists of two 8 MW projects. Image: Greenvolt
Greenvolt Power announced it was awarded 1.2 GW capacity for six BESS projects in Poland at the end of last year, also claiming it was the “top winner” of the renewable energy auction round.

How much does greenvolt power pay a year in Poland?

Greenvolt Power will be remunerated PLN 244.90/kW (\$6.18/kW) per year as part of the arrangement. Poland’s Energy Regulatory Office announced in December it awarded 494 MW of solar in the auction round, with 123 MW for installations smaller than 1 MW and 471 MW for projects larger than 1 MW.

Who is greenvolt power & Energa Wytwarzanie?

Greenvolt Power, a Greenvolt Group company specialized in large-scale wind and solar photovoltaic projects, reached an agreement with ENERGA WYTWARZANIE, for the sale of a portfolio comprising two renewable energy projects in Poland for a total consideration of €107 million.

What is greenvolt power?

The Greenvolt Group, through Greenvolt Power, will reinforce the renewable energy generation capacity in Poland. Through the implementation of a pioneering hybrid solution in this market, it will combine three technologies in the same network access point.

Why is Poland important for greenvolt group?

João Manso Neto, the CEO of Greenvolt Group, said: “Poland is an extremely important market for Greenvolt Group. This result reinforces its position in the group’s growth strategy, giving us the opportunity to develop and construct six BESS systems.

How can greenvolt power increase its generation capacity?

A pioneering hybrid solution in Poland allows Greenvolt Power to increase its generation capacity by 10 MW, for a total of 37.5 MW through wind and solar irradiation.
