## Battery vs Generator vs Battery + Generator : r/solar

If I had solar and a battery backup, the inverter would produce 240v. I have a generator that only produces 120 volts. Is there a way to use the 120 volt generator output to charge the battery, which would then feed the inverter so that I'd get 240 volts at my breaker panel?

## Solar batteries or propane generator for backup system? : r/solar ...

The solar controller starts your generator allows it to power the house and recharge the battery to 100% and then turns off the generator. For the sun power system, I've read in the manufacturer documentation that it checks to make sure the solar is not able to produce enough electricity for the house and recharge the batteries.

## **Tell me why I should or shouldn't buy a solar generator**

**Limited Battery Capacity:** Solar generators have a finite battery capacity. While they can recharge multiple devices, running power-hungry devices simultaneously might drain the battery quickly.

**Not Ideal for Heavy Load Appliances:** Solar generators might not be suitable for high-wattage appliances or heavy-duty equipment due to their limited output.
