Guernsey moden solar

Overview

Does Guernsey have on-island solar?

Alan Bates, CEO of Guernsey Electricity Community solar Guernsey has already started on-island renewable generation with community-scale solar arrays feeding over 350kW of renewable solar power into the grid. This means that no matter your property size, a portion of your electricity will always come from on-island solar energy.

Could solar panels save guernsey's 'mouth-watering' economy?

Jack Fletcher, from Renew Guernsey, told ITV News that widespread solar panel installation across Guernsey could not only produce greener energy, reducing the island's carbon footprint, but could also bring "mouth-watering" economic benefits to the island.

Does Guernsey have electricity?

Over 93% of electricity in Guernsey is renewable Our island's imported electricity is sourced from 100% renewable energy, including solar, wind and hydroelectricity. This is brought into the island through a subsea cable and distributed to every home and business using an underground network of cables.

Is there a waiting list for solar panels in Guernsey?

Guernsey firms say there is now a six-month waiting list to have solar panels installed. Credit: ITV Channel Guernsey is seeing an increase in demand for solar panels to be installed on houses with homeowners looking for cheaper energy alternatives. There is now a six-month waiting list for islanders to have panels installed on their homes.

Why should you choose Electric in Guernsey?

In Guernsey today, over 90% of the electricity we use annually comes from renewable sources such as hydro, wind and solar power. So when you choose

electric – whether to heat your home, drive around, or cook your dinner – enjoy peace of mind that your choice is helping Guernsey take a step towards a cleaner, greener future for our island.

Why do we use fossil fuels in Guernsey?

Unlike electric, fossil fuel-powered heating boilers and vehicle engines lose valuable energy when the fuel you've paid for is converted to the heat or power you need. This translates into us paying for greenhouse gas emissions. The fossil-fuels used every day by people in Guernsey include heating oil, LPG gas, petrol and diesel.

New rules to kick 'zombie' solar farms off grid queue

Serious developers have complained for years about the time it takes to get a cable to connect their wind or solar farm, or other project, to the grid. But at the moment, there is a first-come, first-served system, which means that a serious project which could provide renewable electricity to millions of homes is often behind hundreds of other
