Guinea's Solar Promise

But as a result of its government's openness and willingness to reform, Guinea has secured its first bankable solar-power investment. This is a major energy milestone that is likely to lead to the construction of the country's first solar-power plant. This achievement offers important lessons for energy sectors across West Africa.

Guinea

Guinea, which is known as "the Water tower of Africa", could be the main player in the electricity market in West Africa. The country is planning, with the support of TFPs, to build facilities to generate electricity from renewable water and solar energy sources so as to diversify its energy mix, and also to electrify rural areas through

[Khoumagueli Solar - InfraCo Africa](#)

The Government of Guinea (GoG) have therefore prioritised development of the energy sector as part of the country's National Development Plan Economic and Social Council. The GoG is also seeking to exploit Guinea's solar power potential, to diversify the country's energy mix and increase the availability and reliability of power.
