Reshaping Guyana's energy landscape

Guyana is on the cusp of a major energy transformation. The recent arrival of two state-of-the-art gas turbines from Sweden, integral to the country's Gas-to-Energy project, signals an exciting new chapter in this project. This milestone promises to reshape the nation's energy landscape, making it more efficient, sustainable, and affordable for its citizens. At the [...]

STIMULATING FUTURE GROWTH: CLEAN ENERGY - Guyana Energy ...

Guyana has some of the highest electricity rates in the Americas and is about 97% dependent on imported fossil fuels. Using natural gas as a bridge away from heavy fuel oil, followed by the Amaila Falls Hydropower Project and an expansion of solar, wind and biomass, Guyana will see a massive expansion of renewable energy across the country.
