Gxt4 240vbatt Slovenia

Overview

What is Vertiv Liebert gxt4?

The Vertiv Liebert GXT4 family features on-line double-conversion technology, which protects equipment against the full range of disturbances, including outages, sags, surges and noise. The Vertiv Liebert GXT4 family of on-line UPS eliminates most disturbances without drawing on battery power, extending battery life and minimizing replacements.

How much rack space does a Liebert gxt4 use?

The compact Liebert GXT4 UPS from Vertiv consumes as little as 2U of rack space. A rack-mount hardware kit is included with each unit, as well as a base for tower installation in open environments.

Does Vertiv Liebert gxt4 have a communication card?

Every Vertiv Liebert GXT4 can be configured with a communication card to provide remote, web-based monitoring of up to 50 distributed UPS units and batteries through the free Vertiv Trellis Power Insight application. The card also enables SNMP-based management through a variety of other monitoring platforms.
