

## European Solar Energy Storage

# Hello solar reviews Kazakhstan

## Overview

---

Is Hello solar a good company?

Hello Solar made it easy and explained everything clearly. I was a little worried at the start reading through the reviews but when seeing how long they have been in business and the amount of installs completed, I gave them a shot! Very pleased, happy with the process and would highly recommend to any of my friends. Good work. Show details.

Did Hello solar deliver what they promised?

Hello Solar delivered what they promised! From the time of acceptance of their quote, everything went through as scheduled. Installation crew were very professional, turned up on time and completed all works efficiently. Correspondence with the energy retailer were copied to us to keep us in the loop. Would not hesitate to recommend Hello Solar!.

Is Hello solar in breach of contract?

The completed install was way overdue and Hello Solar were in breach of contract. No apology, just running away as fast as they could with exception of the tech support person. My best advise. use anyone but Hello Solar.

How much does it cost to install a Jinko Solar System?

I was installed by Hello Solar in October 2018. Complicated roof, east and west orientation, tiled roof, mostly 2nd story, mixed with some on a single story section. Cost \$4650 for 6.6kw of Jinko panels and a 3 phase 5kw Zerversolar inverter. So after the Vic Govt rebate, owes me about \$2400.
