Satellite-based Methods for Intra-day Solar Irradiation Forecast in

French Guiana's electricity production mainly comes from local renewable energies (64%), compared to 36% from imported fossil fuels. To improve the integration of intermittent renewable energies, solar energy in this study, it is necessary to focus on resource forecasting.

Assessing Surface Solar Irradiance in French Guiana using the ...

French Guiana is an overseas department administratively attached to France, located in the northeast of South America between Brazil and Surinam. French Guiana's distance from France (more than 8000 km) leads to varied needs, especially in energy supply. A promising solution for solar mapping of French Guiana lies in the use of satellite images as the few ground ...

Voltalia to build 4-MW solar plant at space base in French Guiana

Renewable power producer Voltalia SA (EPA:VL TSA) has been awarded the construction of a 4.2-MW solar farm in French Guiana by France's space agency CNES.
