Are Lithium-Ion Batteries Safe?

Lithium-ion battery fires can be dangerous and costly, as demonstrated by the APS fire in Arizona. While these batteries offer many benefits, it is important to take appropriate precautions to minimize the risk of a fire. By following best practices for storage, handling, and maintenance, and by installing fire suppression systems where appropriate, the risk of a ...

DC Solar Trailer PV Panel Upgrade - Higher Wire Inc.

These upgrades are 10% off when purchased with a battery. Depending on the year manufactured, a typical DC Solar trailer will have between 2300 and 2700 watts of PV power. Just like the batteries, the PV panels degrade over

time, so most trailers produce far less than their nameplate value. We're asked quite often
