Not sure what size unit you need?

Try our free storage space calculator for an accurate estimate, then speak to a storage specialist for a free quote!.

This storage unit size calculator built by StorageCafe can help you choose the best unit size to fit your belongings, whether you're storing furniture, clothing or other items.

The size of the storage unit that you need depends on how much stuff you have. Move.org recommends you calculate the square footage of your belongings and then choose between a small (25-50 square feet), medium (75-150 square feet), or large (200-300 square feet) storage unit.

Using the form below, tell us what you need to store, and our calculator will provide an estimate in cubic feet as well as the size unit you'll need. In each category below, enter the number of your items to be stored. How much does a storage unit cost?

The average storage unit size is approximately 10 x 10 feet (or 100 square feet). These medium-sized units cost around \$150 per month and can often fit belongings from 1 to 3 bedrooms. What size storage do I need?

The size of the storage unit that you need depends on how much stuff you have.

What size storage unit should I buy?

Maybe you have a bigger mattress than a full. That moves us into the next largest category. Able to fit about two of three bedrooms' worth of furniture, medium storage units are great for both personal and commercial storage. And don't rule out outdoor items. This size range can fit motorcycles, jet skis, canoes, and kayaks.

How much storage do I Need?

To effectively answer "how much storage do I need," consider these key factors: Past Usage Trends: Examine your storage growth over the last few years to project future needs. Emerging Technologies: Account for the storage demands of technologies you plan to adopt, like AR/VR and AI.

How many square feet can a storage unit hold?

There are dozens of storage unit sizes, but they all fall into these three categories. Small units hold up to 50 square feet of belongings, medium units cap out at 150 square feet, and large units can fit as much as 300 square feet. Sizes, dimensions, and details are estimates and may vary by location.

Do you need a storage unit?

If you are looking at the items in your home, worried about how you are going to possibly pack up everything, you probably need a storage unit in the large category. These have all the space you need for dining room furniture, big bookcases, every mattress in your house.

How do you estimate a storage unit size?

The first step to estimating the storage unit size you need is to see how much stuff you have. Count all your boxes and identify larger items like couches, tables, and bookshelves. Be sure to write everything down so you can refer to it later.
