How to calculate the total cost of hiring an employee, and whether or not you can afford it.

The uncertainty surrounding money makes many businesses delay hiring when they should be adding new team members, which could result in lost opportunities—and lost revenue. How much does it cost to hire an employee?

Fees for payroll providers can range from \$30 to \$100 per month or more, and they are considered part of the baseline costs of hiring an employee. To recap, these are your monthly baseline costs to hire an employee: To review the floral shop example of hiring a shop hand for 20 hours a week at \$15 per hour, your monthly costs will be:.

How much do you pay a salaried employee?

You hire someone to help out around the shop, working 20 hours a week for \$15 an hour. Every two weeks, you pay your employee \$600 in wages. In other words, every two weeks, you need to have \$600 available for just wages.  $(20 \times 2) \times \$15 = \$600$  On the other hand, salaried employee's wages

are based on the employee's salary.

How much does a staffing agency cost?

For example, if a freelance professional's rate is \$80 per hour, the hourly cost an organization pays the staffing agency could be up to \$140. Be aware that staffing agency markup rates can vary and typically range between 25% and 75%. Some even exceed 75% for certain in-demand roles, with figures reaching 100% or higher.

Do you have the cash to hire?

Fill out this spreadsheet that contains monthly and annual employee cost calculators to see if you have the cash to hire. When hiring, there are a few employee costs that you must pay. If you can't cover these costs, then you're not ready to hire. An employee's gross wages are the fixed, regular payments you make to your employee.

What is the true cost of an employee?

The True Cost of an Employee is higher than one may expect. While the average person may think that the cost of an employee is simply their salary, there is also a variety of other expenses such as National Insurance Contributions or even Private Health Care.

How do I choose the right pay rate for a new hire?

If you've decided your business needs additional support, selecting the appropriate pay rate for a new hire is only the first step in determining the funds you'll need available to grow your team. You'll have to figure out if you can actually afford the total cost of adding someone to your payroll.

businesses delay hiring when they should be adding new team members, which could result in lost opportunities--and lost revenue.
