How to get solar energy for free

Overview

How to avoid burning a hole in your pocketbook and protect yourself from consumer scams about free solar panels.

In 2025, homeowners across the U.S. may qualify for “free” or highly subsidized solar panels thanks to new federal and state programs. From the 30% Residential Clean Energy Credit to EPA-funded Solar for All grants, incentives are making solar more affordable than ever.

In 2025, homeowners across the U.S. may qualify for “free” or highly subsidized solar panels thanks to new federal and state programs. From the 30% Residential Clean Energy Credit to EPA-funded Solar for All grants, incentives are making solar more affordable than ever.

The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested. However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant.

In particular, low-income households and disadvantaged communities stand to benefit from initiatives that provide free or subsidized solar panels. Here’s a comprehensive guide to understanding and accessing these programs, helping households save on energy costs and participate in a more.

The short answer is no, you can’t get free solar panels from the government. That being said, there are many incentives put in place by the Federal Government to help homeowners transition to solar energy to power their homes. Here are some of the most popular incentives the Federal Government — in.

However, amidst the numerous bad actors misleading the public, there are also a handful of niche government programs that do, in fact, provide solar systems for low-income households at no cost. In this article, we’ll explore the scams and reputable programs surrounding the premise of free solar.

This guide will walk you through everything there is to know as well as how to get solar panels for free. Companies often offer “free” solar panels through leases or power purchase agreements (PPAs), where they install and maintain

the panels at no upfront cost. “Free” solar panels can result in.
