Overview

Here are 11 ways you can invest \$100 to build wealth. Scroll down to learn more about each: 1. Build a portfolio 2. Trade fractional shares 3. Earn interest with a high-yield savings account.

A popular option is to build a diverse portfolio by investing in fractional shares, exchange-traded funds (ETFs) and bonds. With different types of investments, you're protecting yourself from.

If you have \$100, you can put it into one of the best high-yield savings accounts or a certificate of deposit (CD) and let it blossom for a short or long time. You may need to put a minimum amount into your account or pay monthly or ATM fees, which can quickly eat into.

The stock market can be good option if you're looking to invest for several decades. However, if you need to grow your \$100 right away, don't use the stock market, because it tends to.

It's a good idea to have an emergency fund that can cover at least three to six months' worth of expenses in case you have an unexpected bill or lose your job. If you only have \$100 to put in your emergency fund right now, don't fret. It's a good start. Where to build.
