

European Solar Energy Storage

How to market solar energy

Overview

The solar industry has seen some serious growth since the turn of the millennium. According to the Solar Energy Industries Association, solar deployments have experienced an average annual growth rate of 25%. This impressive pace of expansion is largely thanks to: 1. Government subsidies. 2.

There is no single, generic solar customer, and that becomes truer the more demand grows. Instead, six general buyer personas populate the.

Understanding the main solar buyer personas is step one. Step two is shaping a marketing strategy that best engages each one. These are some of the best ways to connect with solar.

In this comprehensive guide to solar marketing in 2025, we will look at how you can best grow your solar leads organically and differentiate your business, even through tough markets. In today's fast-paced and competitive world of solar, branding is more important than ever.
