How to start a business in solar energy

Overview

Of course, there's much more to solar installation than slapping up panels: there's general contracting, roofing, metal fabrication, sales, repair and maintenance, consultation, landscape design, and so much more. The best place to start a new solar business is between the cracks of large, over-saturated markets.

You've nailed down your niche, identified solar certifications and licenses, and are ready to make the jump. Let's take a dive into how to start a solar business from the ground up, starting with the legal stuff first.

There are many barriers when it comes to getting a solar business off the ground. Here are three common ones that can be easily solved with the right.

How to start a business in solar energy
