

European Solar Energy Storage

Hungary evero energy hull

Overview

Is Evero energy looking for a buyer?

Meanwhile, the shutters have come down at Energy Works, with operation at the plant suspended. According to a report by specialist waste news website ENDS Waste & Biodiversity, its owner Evero Energy is looking for a buyer after struggling to process enough waste to make it economically viable.

How much energy will Hull generate a year?

Once operational, it will generate 25MW of clean energy – enough to power 43,000 homes. It will process 240,000 tonnes of general waste every year and support around 25 permanent jobs. The site is also home to an Energy Academy, with a partnership with the University of Hull set to explore research into renewable technologies.

Is Energy Works a good investment in Hull?

It is undeniable though that Energy Works is one of the most significant investments to be made in Hull in living memory. Attention will now turn to the autumn, when electricity generated in Cleveland Street is expected to power homes across the region. Join the Hull Means Business Facebook group
