

European Solar Energy Storage

Hungary recom solar

Overview

Are Hungarian solar projects eligible?

Even then, eligible projects must fulfill “exemption conditions” which lack transparency. In October, the Hungarian government introduced a provision for small, household-sized solar power plants that fundamentally transformed the Hungarian solar market.

Are grid constraints hampering solar deployment in Hungary?

PV deployment is gathering pace in the EU member state but grid capacity shortfalls and unpredictable shifts in government policy need to be addressed if the nation is to harness its full solar – and European energy security – potential. Grid constraints are hampering the roll-out of large scale solar in Hungary.

Why did RECOM buy SCH?

SCH, was acquired by RECOM in 2017. Since then the facility has been upgraded with fully automated, state-of-the-art production line and upscaled from merely 50MW o a over 470MW production capacity. Since acquisition, 11 million euros has been invested by RECOM for the upgrade and the upscale, securing facility’s cost efficiency, higher
