Solar 101: A Guide To Buying Solar Power Systems

Most Australians buy solar power systems with cash. If you are debt-free and have cash looking for a place to go, investing in a home solar system is worth serious consideration. A solar power system installation currently generates a tax-free, reliable return that is far higher than bank interest rates or government bonds at the time of writing.

[LONGi Solar , Solar Panels Review](#)

In 2023 LONGi shipped a massive 67.5 gigawatts of solar panels. That's enough to generate electrical consumption equal to half of Australia's electricity consumption. Not bad for a single company. All but 1.1GW of their solar panel

production was exported. This means 217GW of solar China installed in 2023 was mostly met by other manufacturers.
