

## European Solar Energy Storage

# Hyundai energy storage switch

智慧能源储能系统  
Intelligent energy storage system

## Overview

---

Who will build the Hyundai energy storage system (ESS) in 2022?

By September 2022, the parties plan to install the energy storage system (ESS), developed by Hyundai Motor Group. OCI Solar Power will procure certain ESS components and supervise construction while CPS Energy will operate the ESS. All three parties will work to build the ESS and then analyze and share data from the project.

Does Hyundai Home offer solar energy & electric vehicle charging?

Hyundai Home offers customers an opportunity to access solar energy and electric vehicle charging from their home with top-rated home chargers, solar panels, and energy storage systems through a one-stop marketplace platform.

Can You charge an Electric Hyundai at home?

On the Hyundai Home website, the company says, “Not only can you charge your electric Hyundai at home, you also have the power to take charge of your home’s energy. Hyundai Home gives you an easy way to produce, store and use your own energy with solar panels, energy storage systems and an EV home charger.”.

How does Hyundai Home Work?

Hyundai Home seems to be primarily an aggregator of home charging stations, solar panels, and energy-storage systems that customers can purchase in one go. It also provides three bids for each installation drawn from Electrum's network of electricians. Electrum will also provide "energy advisors" to walk customers through the process, Hyundai said.

Why should you buy a Hyundai Home?

Hyundai Home gives you an easy way to produce, store and use your own energy with solar panels, energy storage systems and an EV home charger.”

Some of you may remember when Tesla started something like this a few years ago.

Why should you choose HD Hyundai energy solutions?
