Do I actually need special "solar eclipse glasses", or can I

So as others have said, get* something proper. Welding glass (you don't need shield) is pretty cheap. Also search for how to watch it using a pinhole. It's virtually free and interesting. *But honestly you don't need anything really if you will be with people. Friends, colleagues, whatever.

About

We live in ARUBA, a very sunny island in The Caribbean. Solar solutions are perfect for here. There are many ways to use the sun for your solutions. I use this mainly for generating electricity, but at the same time as a Dark/Light

switch as well. Electronics, small mechanics, small construction is what I like.

Solar Energy in Aruba: Missing the Green Wave

Streamlining the solar energy approval process is the first and most crucial step. Encouraging more businesses and homeowners to invest in solar will help Aruba reach its renewable energy goals and attract eco-conscious tourists. Aruba has the potential to be a leader in green energy and sustainable tourism, but decisive action is required today.
