Overview

Who is ib vogt?

Our guiding principle is “PV is global, business is local.” We are an international organisation augmented by strong local presence and joint venture partnerships. ib vogt has one of the largest pipelines in the world of any solar company.

What will ib vogt do in the future?

ib vogt has one of the largest pipelines in the world of any solar company. A key objective going forwards is to continue expanding our leading independent power producer (“IPP”) model to leverage more business opportunities. We expect major growth in the BESS applications segment.

Why should you join ib vogt?

ib vogt has not only invested strongly in building its position in leading markets worldwide, but also in its people. Solar will become the energy of the future, and the future is now. Are you interested in making a difference in the world?

Then begin an exciting career with a team of solar professionals who are changing the world for the better.

Will ib vogt & nextpower V ESG buy a solar project?

ib vogt and NextPower V ESG have agreed on the sale of a 110 MWp solar project in Segovia, Spain. Construction started in March 2024, with operations set for Q1 2025. The project will generate 215.6 GWh annually, powering 55,000 homes and reducing CO2 emissions by 47,450 tons per year.
