

European Solar Energy Storage

Iceland inaccess power factors

Overview

The combination of Power Factors' leading asset performance management solutions with Inaccess' SCADA, power plant and battery control, and market trading offerings will support the transition of the global renewables energy market from a subsidized and largely static environment to a dynamic, market-based environment.

The combination of Power Factors' leading asset performance management solutions with Inaccess' SCADA, power plant and battery control, and market trading offerings will support the transition of the global renewables energy market from a subsidized and largely static environment to a dynamic, market-based environment.

US-based renewable energy software provider Power Factors is acquiring solar and battery storage monitoring firm Inaccess, taking its asset management portfolio to nearly 200GW.

The combination of Power Factors and Inaccess creates a comprehensive renewables product suite, from development through operations, from energy trading through power plant management, maintenance, and controls.

The combination of Power Factors' leading asset performance management solutions with Inaccess' SCADA, power plant and battery control, and market trading offerings will support the.

Power Factors, a leader in renewable asset management software, today announced it will acquire Inaccess, a leading provider of integrated mission critical software and hardware solutions for renewable power plants, battery energy storage systems, hybrid plants, and virtual power plants (VPPs). Does power factors own inaccess?

Renewable asset management software company Power Factors has announced it will acquire Inaccess, a provider of integrated mission critical software and hardware solutions for renewable power plants, battery energy storage systems, hybrid plants, and virtual power plants (VPPs). Courtesy of Power Factors.

How will Power factors & Inaccess work together?

The combination of two powerful platforms, with Power Factors' leading asset performance management solutions and Inaccess' best-in-class SCADA, power plant and battery control, and energy marketing offerings, will unlock these new services, along with new potential revenue streams.

What factors affect electricity generation costs in Iceland?

In Iceland, electricity generation costs mainly depend on investments, cost of capital and the expected life cycle of a plant, rather than on external factors such as fuel, carbon prices or adjacent power markets.

What does Inaccess's acquisition of power factors mean for customers?

The acquisition, for an undisclosed sum, will offer the ability to connect Inaccess' EMS, SCADA and power plant controller technologies with the US company's asset performance management solutions, Power Factors said, unlocking new revenue opportunities for customers.

Why is power factors partnering with Inaccess?

Such goals require a broad and deep technical stack along with the platform capacity and scale that serves the largest energy producers on the planet. Achieving global scale is one of the many reasons we are excited to join forces with Power Factors," said Christos Georgopoulos, co-founder and CEO of Inaccess.
