Ikon power Cuba

Overview

Parts of Cuba experienced blackouts starting on 8 February 2024. On February 13, 45% of the country was affected by power outages. In March 2024, Cuba experienced large-scale power outages, amidst an economic crisis that hit the country. The blackouts, which peaked on 17 March and typically lasted for up to 18 hours a day, were due to the frequent breakdowns of the Antonio Guterres Thermoelectric Power Plant.
