## European Energy divests three solar parks in the UK

2 ??? "The United Kingdom has, in the span of a few short years, evolved into a core market for European Energy. We have committed to funding the development of a large pipeline of UK-based solar, wind and energy storage projects and have already taken Investment Decision on the next tranche of construction projects, due to break ground in 2025," says Jens-Peter Zink, ...

## Frequently Asked Questions

Please click on the question to expose the answer. How does solar power work? Solar panels convert sunlight into direct current (DC) electricity. An inverter then converts the DC electricity into alternating current (AC) electricity, which is used to power your home or business. Any excess electricity is sent back to the grid for others - Indigo Solar Energy
