Overview

Who is INEOS?

We are an energy company committed to meeting the needs of our customers today and throughout the energy transition. We are a key supplier of energy and carbon storage solutions to our internal INEOS customers as well as third parties. We produce and trade oil, gas, Liquefied Natural Gas (LNG) and carbon credits.

What does the energy bill mean for the Turks and Caicos Islands?

In this vein, the bill introduced in the House of Assembly on Thursday, November 2, 2023, aims to transform the energy landscape in the Turks and Caicos Islands by fostering energy independence and promoting economic growth.

Who owns Turks & Caicos utility limited (TCU)?

Turks & Caicos Utility Limited (TCU) is wholly owned by FortisTCI and provides electricity to Grand Turk and Salt Cay. In 2010, the government of Turks and Caicos contracted with a consultant to draft recommendations for exploring the use of renewable energy and energy efficiency technologies to create a more sustainable energy framework.

Does Turks and Caicos have a policy on energy efficiency?

Turks and Caicos has few policies related to energy efficiency and renewable energy. Historically, the territory has not implemented policy mechanisms to aid in the development of clean and energy-efficient technologies.

What is the energy landscape in Turks and Caicos?

The energy landscape in Turks and Caicos is complex and dynamic. Fortis TCI, while acknowledging the challenges, is proactively addressing them through a combination of strategic investments, technological innovation, and a commitment to sustainability.

How much does electricity cost in Turks and Caicos?

The 2015 electricity rates in Turks and Caicos are \$0.29 per kilowatt-hour (kWh), slightly below the Caribbean regional average of \$0.33/kWh. Like many island nations, Turks and Caicos is almost 100% reliant on imported fossil fuel, leaving it vulnerable to global oil price fluctuations that have a direct impact on the cost of electricity.
