

## European Solar Energy Storage

# Integrated energy solutions ltd Morocco

## Overview

---

What are Morocco's energy policy initiatives?

Beyond the advancement of renewable energy, Morocco's policy initiatives encompass energy efficiency measures in challenging-to-abate sectors, such as building insulation and the adoption of energy-saving light bulbs. The overarching objective is to achieve a 20% reduction in overall energy consumption by 2030.

What is the Moroccan energy sector doing about variable renewables?

The national electricity supplier and grid operator, as well as other actors in the Moroccan energy sector, are developing solutions and improving skills to enable the electricity system to account for a larger share of variable renewables. The project operates in the following areas of action:

Does Morocco's ambitious solar energy plan face challenges?

Source: International Energy Agency (IEA) . Morocco's ambitious initiative to diversify its electricity generation through a substantial expansion of solar power technologies, including PV panels and CSP, may face challenges due to the anticipated rise in dust and sandstorms in the region.

Is Morocco a driver of green and competitive energy?

With the new development model published in June 2021, Morocco also wants to position itself as a driver of green and competitive energy. In view of this, the country is implementing ambitious projects to expand renewable energy sources.

Are Moroccan solar PV systems subject to increased temperatures?

Moroccan solar PV systems subjected to elevated temperatures under various climate scenarios from 2021 to 2100. Source: International Energy Agency (IEA) . Moroccan wind power plants subject to increased temperatures under various climate scenarios from 2021 to 2100. Source: International Energy

Agency (IEA) .

Could Moroccan hydropower plants be able to import green hydrogen from Morocco?

Moroccan hydropower plants facing increased aridity under various climate scenarios from 2021 to 2100. Source: International Energy Agency (IEA) . A detailed pre-feasibility analysis conducted for a German fuel and gas distribution company exploring the possibility of importing green hydrogen from Morocco. Source: Alexec Consulting.

### Solar lighting in Morocco

In cities and villages, in companies and on university campuses, our teams have installed solar lighting all over Morocco: street lights that work 100% autonomously on solar panels, sometimes combined with small wind turbines. An integrated battery is loaded in the daytime, and the lights come on in the evening when it gets dark.
