Iraq dael solar international

Overview

Who is delivering a 1GW photovoltaic project in Iraq?

French energy major Total Energy has awarded China Energy Engineering International Group the engineering, procurement and construction contract for its 1GW photovoltaic project in Ratawi, Iraq. China Energy Engineering Tianjin Electric Power Construction, International Group, and Southwest Institute will deliver the project.

Why is the Iraqi PV project important?

" This project is the first large-scale project in the Iraqi government's PV construction plan, and serves as a significant milestone in CEEC's commitment to international capacity cooperation and its collaboration with multinational companies to tap into overseas renewable energy markets and drive global energy transformation.

How many subsidiaries does Dael have?

The DAEL Group consists of several independently operating subsidiaries: DAEL Electro, DAEL Climate, DAEL Technical Management, DAEL Telecom, DAEL Power, DAEL Security and DAEL Connectivity. These companies operate on the cutting edge of technology and innovation, each within its own field of expertise.

How much electricity will Iraq generate a year?

"Once completed, it is projected to generate 2.9 billion kilowatt-hours of electricity annually and reduce carbon dioxide emissions by 2.385 million tons. "The project will meet Iraq's growing electricity demands, facilitate the optimization of its power structure, and accelerate its economic reconstruction.

Why should you choose Dael?

In conclusion, by responding to market opportunities and technological

developments, DAEL will offer the best solution for a competitive price. Proven expertise since the start of our company in 2000, with all essential knowledge in-house. The DAEL Group operates on the cutting edge of technology and innovation.
