Overview

Svalbard and Jan Mayen (Norwegian: Svalbard og Jan Mayen, ISO 3166-1 alpha-2: SJ, ISO 3166-1 alpha-3: SJM, ISO 3166-1 numeric: 744) is a statistical designation defined by ISO 3166-1 for a collective grouping of two remote jurisdictions of Norway: Svalbard and Jan Mayen. While the two are combined for the purposes of the International Organization for Standardization. Svalbard and Jan Mayen (Norwegian: Svalbard og Jan Mayen, ISO 3166-1 alpha-2: SJ, ISO 3166-1 alpha-3: SJM, ISO 3166-1 numeric: 744) is a statistical designation defined by ISO 3166-1 for a collective grouping of two remote jurisdictions of Norway: Svalbard and Jan Mayen. While the two are combined for the purposes of the International Organization for Standardization (ISO) category, they are not administratively related. This has further resulted in the country code top-level domain .sj being issued for Svalbard and Jan Mayen, and ISO 3166-2: SJ. The United Nations Statistics Division also uses this code, but has named it the Svalbard and Jan Mayen Islands. Svalbard is an archipelago in the Arctic Ocean under the sovereignty of Norway, but is subject to the special status granted by the Svalbard Treaty. Jan Mayen is a remote island in the Arctic Ocean; it has no permanent population and is administered by the County Governor of Nordland. Svalbard and Jan Mayen have in common that they are the only integrated parts of Norway not allocated to counties. While a separate ISO code for Svalbard was proposed by the United Nations, it was the Norwegian authorities who took initiative to include Jan Mayen in the code. Its official language is Norwegian.

Svalbard Svalbard is an archipelago in the about midway between mainland Norway and the . The group of islands range from to latitude, and from to longitude. The area is 61,022 square kilometres (23,561 sq mi) and there were 2,595 residents in. Svalbard Svalbard is an archipelago in the about midway between mainland Norway and the . The group of islands range from to latitude, and from to longitude. The area is 61,022 square kilometres (23,561 sq mi) and there were 2,595 residents in Sept 2024. is the largest island, followed by and . The administrative center is , and other settlements, in addition to research outposts, are the Russian mining community of , the research community of and the mining outpost of . The of 1920 recognizes Norwegian sovereignty, and the 1925 made Svalbard a full part of the Kingdom of Norway. The archipelago is administered by the , which is subordinate to the . Unlike the rest of Norway (including Jan Mayen), Svalbard is a and a , and is not part of the nor the . Jan Mayen Jan Mayen is a in the located at the border of the and the . The single island covers an area of 377 square kilometres (146 sq mi) and is dominated by the 2,277-metre (7,470 ft)

tall volcano. The island's only population is a combined military and meteorological outpost that operated a at .

The ISO designation is congruent with an equivalent United Nations Statistics Division category and users of these classification systems may in some cases report separately for "Svalbard and Jan Mayen Islands" instead of rolling up this information into the "Norway" category. Neither Svalbard nor Jan Mayen have their own flag or , and the The ISO designation is congruent with an equivalent United Nations Statistics Division category and users of these classification systems may in some cases report separately for "Svalbard and Jan Mayen Islands" instead of rolling up this information into the "Norway" category. Neither Svalbard nor Jan Mayen have their own flag or , and the is used for both of them, both alone and as a group. An attempt to change the ISO code to just "Svalbard" has previously failed because of opposition from the . However, for statistics use within population and trade, "Svalbard and Jan Mayen" essentially means just "Svalbard". ISO 3166-2:ISO 3166-2:SJ is the entry for Svalbard and Jan Mayen in , a system for assigning codes to subnational administrative divisions. However, further subdivision for Svalbard and Jan Mayen occurs under Norway's entry, : • NO-21 • NO-22 The for Svalbard is SJ.SV and fo.
