Overview

Who installs solar PV in Ireland?

Electric Ireland, with our official installation partner NRG Panel, delivers Solar PV installations across Ireland to the highest quality standards, ensuring a strict health and safety approach to protect you and our staff. Over 8,000 installs nationwide, SEAI Registered and Triple ISO accredited. What is Solar PV?

.

Are solar panels a good investment in Ireland?

Solar panels in Ireland are a good investment and a typical solar PV system usually pays for itself in around 5-6 years . After that, it's free electricity all the way. The initial outlay for a solar PV system is roughly €7,000 to €10,000. Most of our customers generate more solar electricity than the average Irish household consumes each year.

Why do Irish homes need solar panels?

Incentives like the Sustainable Energy Authority of Ireland (SEAI)'s grants for solar photovoltaic (PV) systems for homes have also played a pivotal role. Additionally, technological advancements have made solar panels more efficient and cost-effective, further appealing to Irish homeowners looking to reduce their carbon footprint and energy bills.

How much do solar panels cost in Ireland?

The cost of a solar PV system varies depending on the size of your roof, whether you want to add a battery etc. But as a ballpark guide, most PV systems cost roughly €7,000 to €10,000. This takes into account the government grant of up to €2,100. For more information, check out our full guide to solar panels Ireland cost and savings.

Are solar panels a sustainable solution for Irish homeowners?

Irish homeowners from county to county are seeking sustainable options that not only reduce their carbon footprint but also save them money in the long run. One of the most promising solutions for homeowners across Ireland is solar panels.

Do solar panels work in Ireland?

Short answer: yes, solar panels in Ireland work very well. Most of the solar PV systems that we install generate more electricity than the average Irish home consumes. Here's what that looks like in practice. What is the forecast annual power output for our past customers?

Solar Panels Cost Guide For Houses in Ireland

Solar panels cost around EUR5,000 to EUR18,000 for houses in Ireland. A grant can bring this down to EUR3,200 - EUR15,600. Here are some specific examples of what you might expect to pay (ex-grant):
 EUR5,700: ~2 kW of solar panels
 EUR10,000: ~5 kW of solar panels
 EUR18,000: ~9 kW of solar panels + power diverter + battery
 EUR1,800 extra: For blackout protection

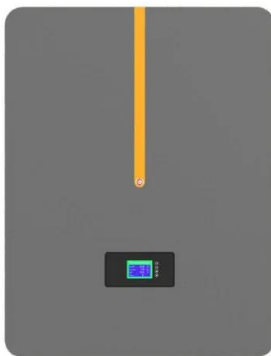

Solar Panels Ireland

Modern solar PV installations are effective even on cloudy days. Therefore, Cork is well-suited for solar energy generation, especially with south-facing or east-west orientations. Cooler climates, like Ireland's, enhance solar panel performance, and Cork's location in the sunnier southeast boosts energy production.

EcoPlex Energy Solutions
