Is national energy selling solar system a scam

**LPR Series 19'
Rack Mounted**

Overview

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for “free” or “no cost” solar panels are scams.

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for “free” or “no cost” solar panels are scams.

Be aware of solar energy scams – everything from scammers pretending to be affiliated with the government or utility company to businesses misrepresenting the cost of improvements, savings, and financing options. If your company offers solar energy, remember that claims must not only be truthful.

Demand for solar-powered home systems has increased rapidly in the last several years. With that demand comes fierce competition within the solar panel market. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. While there are still many honest.

sumer complaints about a small number of unscrupulous solar companies. People complain that they were deceived about costs and savings, misled about loans and with the Con sck what resources are available in your state: [usa.gov/state-consumer-purchase-agreement](https://www.usa.gov/state-consumer-purchase-agreement), or subscribing to a community solar.

Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. Making your own solar energy this way saves you money on your utility bills. That’s not to say solar panel scams aren’t real—just that.

But when a solar energy salesman stopped by in May 2022 promising no more electric bills and a \$30,000 tax rebate, she signed a form on his iPad that she thought was just paperwork. “Now I have an \$89,000 loan, 50 panels on my roof, and my porch leaks,” says the 75-year-old retired bar and.

We're sharing some common solar scams for you to be aware of and tips for avoiding them. (Pro tip: you can use EnergySage to take advantage of the research we've already done for you to know you have a trusted installer on your side!) This article is intended to provide an informational overview of. Are free solar panels a scam?

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for “free” or “no cost” solar panels are scams. Comply with the law: old and new. Reputable companies know the importance of being honest about what they’re offering – and how much it costs.

How does a solar installation scam work?

How the scam works: People posing as solar installers or utility employees call or come to your home and offer free solar panels through made-up government programs or incentives. Sometimes they also claim their company will cover the cost of installation by providing huge rebates.

Should you sign a solar deal if you're a scammer?

Clean energy scammers often claim to offer a special deal — if you act right now. If you feel pressured to act immediately on a solar or other renewable energy deal, just say no, advises Melanie McGovern, spokesperson for the Better Business Bureau. Reading the fine print before signing anything.

What are the most common solar panel scams?

Here are some common solar panel scams to look out for. Fake solar companies: Perhaps one of the most common solar scams involves creating a fake company and “selling” solar panel systems without any intention of ever installing them. These fake companies may request a large upfront deposit and then disappear before ever completing any work.

How do I avoid solar panel scams?

To avoid solar panel scams, we strongly recommend doing your own research and verifying that your solar company is legitimate before signing any contracts. Take time to make the right decision: Never rush into a contract.

Are solar salespeople a scam?

In May, the Nevada State Contractors Board started a solar investigations unit.

But the scams continue. The sales pitch often starts with a solar salesperson knocking on the front door, calling on the phone or connecting on social media. Some scammers may say they're consultants from your power company, utilities warn.
