Is solar energy a scam

Overview

They involve scammers making false promises or tricking you into paying for services you'll never receive. Recently, the FTC also issued an alert to warn consumers about solar power scams, such as free solar panels or exaggerated savings.

They involve scammers making false promises or tricking you into paying for services you'll never receive. Recently, the FTC also issued an alert to warn consumers about solar power scams, such as free solar panels or exaggerated savings.

While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy.

Demand for solar-powered home systems has increased rapidly in the last several years. With that demand comes fierce competition within the solar panel market. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. While there are still many honest.

sumer complaints about a small number of unscrupulous solar companies. People complain that they were deceived about costs and savings, misled about loans and with the Con sck what resources are available in your state: [usa.gov/state-consumer-purchase-agreement](https://www.ftc.gov/state-consumer-purchase-agreement), or subscribing to a community solar.

Solar panel scams target homeowners interested in installing solar energy systems. They involve scammers making false promises or tricking you into paying for services you'll never receive. Recently, the FTC also issued an alert to warn consumers about solar power scams, such as free solar panels.

But when a solar energy salesman stopped by in May 2022 promising no more electric bills and a \$30,000 tax rebate, she signed a form on his iPad that she thought was just paperwork. "Now I have an \$89,000 loan, 50 panels on my

roof, and my porch leaks,” says the 75-year-old retired bar and.

While the best solar panels can offer significant benefits, including reduced energy costs and a smaller carbon footprint, the growing industry has unfortunately attracted its share of scammers and unethical companies. These bad actors prey on homeowners’ lack of knowledge about solar technology. Are solar panels a scam?

To protect yourself from clean energy scams: Know that “free” or “no cost” solar panel offers are scams. The federal government does not install solar systems in homes for free. If you’re considering whether solar energy is right for you, check out the Department of Energy’s guide for homeowners and learn more.

Are solar energy companies scamming consumers?

As solar energy has boomed over the years, some companies "have preyed on consumers by offering predatory and costly loans," and many of them "are engaging in overly aggressive sales tactics or are outright scamming consumers," said CNET.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.

Is residential solar a scam?

When done right, going solar can substantially reduce your carbon footprint and your energy costs. However, this rare double-whammy of benefits also makes the residential solar industry ripe for scams.

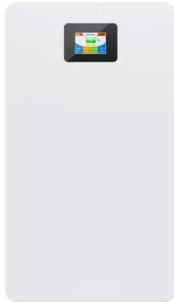

Are solar salespeople a scam?

In May, the Nevada State Contractors Board started a solar investigations unit. But the scams continue. The sales pitch often starts with a solar salesperson knocking on the front door, calling on the phone or connecting on social media. Some scammers may say they’re consultants from your power company, utilities warn.

Should you sign a solar deal if you're a scammer?

Clean energy scammers often claim to offer a special deal — if you act right now. If you feel pressured to act immediately on a solar or other renewable energy deal, just say no, advises Melanie McGovern, spokesperson for the Better Business Bureau. Reading the fine print before signing anything.
