This is an educational subreddit focused on scams. It is our hope to be a wealth of knowledge for people wanting to educate themselves, find support, and discover ways to help a friend or loved one who may be a victim of a scam. Please read the rules: <https://reddit.com/r/Scams/wiki/rules> and our.

they are scam. they use the leads themselves and after utilizing the hell out of the leads they sell it. Most of the leads I got were for the homeowners that were searching months ago and when you call they never answer and if they do they hang up on you because they have already got many calls.

Scam Detector gave the website a medium-low trusting rank, so caution is advised. We compiled 53 powerful factors to expose high-risk activity and see if cleanenergyexperts.com is safe. Let's look at it and its Marketing & Advertising industry through an in-depth review. You'll also learn how to.

This company is a scam and uses false leads. The leads generated are leads that mislead customers to get them to click on the add to make a lead. Also they also have a solar company so it seems like they are just scams and all reviews for this company. Spent over 5k for no decent leads. I work in.

Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. While there are some government-funded solar.

With an overall third-party rating of 4+ and positive feedback across more than 10 reviews from different platforms, Solar Experts is distinguished as a Market Leader. Their solid presence in 1 state underscores a trusted relationship with homeowners in their service regions. If you're looking for. Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Are you a victim of a solar energy scam?

If you are, your consumer rights may have been violated. Solar panel sales can be high pressure and solar panel salesmen are trained to engage unsuspecting homeowners in conversation and employ tactics to sell items that they may not be ready to buy.

Is solar energy safe in terms of usage?

Solar energy is quite safe in terms of usage. While solar energy can be considered safe regarding future price changes compared to other energies, the focus of the question is the safety of using solar energy.

Is going solar free?

While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams.

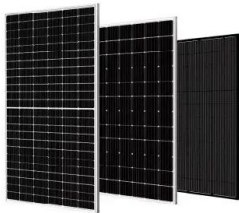

How do I know if a solar contract is a scam?

Pay attention to warranties, cancellation policies, payment schedules, and try to spot any hidden fees. Honest businesses will give you time to go over the terms of the contract, understand the agreement, and let you sign it in writing. To learn more, visit ftc.gov/solar. And if you spot a scam, tell the FTC.

How do I know if solar energy is right for me?

Legitimate providers will work with you to figure out whether solar energy is right for you. Check out the Department of Treasury's guidance on clean energy. Take your time. If someone is rushing you to sign a contract, or insists you sign an agreement on an electronic tablet without showing you the full agreement, stop.
