Overview

Who is Isle of Man Solar?

Isle of Man Solar is a renewable energy company offering state-of-the-art solar solutions and certified and approved installation services for many products on our website. Our fully compliant engineers will carry out all the work. With Renewable energy what's to come is looking brilliant. Looking to upgrade your energy systems?

.

How will the Isle of Man generate electricity?

Plans to generate about 75% of the Isle of Man's electricity through solar and on-shore wind projects have been backed by the Council of Ministers. Manx Utilities (MU) will look to install solar panels on public car parks and government buildings. Wind turbines could also be built on public land to create 30MW of electricity by 2026.

How much electricity does the Isle of Man need?

While average electricity demand on the Isle of Man stands at 40MW, it can peak at 75MW during the winter and drop at night during summer to 25MW. MU chairman Tim Johnston said "detailed work" to determine the best approach to increase renewable energy was underway.
