

## European Solar Energy Storage

# Ivory Coast esy sunhome

## Overview

---

Where is ESY sunhome based?

Esy Sunhome has a 12,000m<sup>2</sup> facility in Shenzhen, China and boasts 800 engineers and assembly line staff. As well as China, the company has offices in Germany, Italy, and here in Australia; which it opened in 2023. The firm launched its HM6 series home storage system products in January 2023.

Why should you choose ESY Sunhouse?

At ESY SUNHOME, we don't just offer products - we offer energy solutions designed to simplify your life and empower your future. Choose ESY SUNHOME for dependable, scalable, and innovative energy storage systems that are built to last. Founded in 2004, ESY SUNHOME has established as a key player in the battery and renewable energy industries.

Does ESY sunhome HM6 have a warranty?

The HM6 is accompanied by a 10 year \*performance\* warranty. Esy Sunhome warrants the HM6 will either retain at least 70% of its original storage capacity, or achieve minimum throughput energy - which varies with the model. For example the minimum throughput energy for a 5.12 kWh system is 21.5MWh. For a 30.72kWh system, it's 129MWh.

How does ESY sunhome monitor a battery?

Monitoring is via the Esy Sunhome App, which the firms says also allows for complete control over the battery's operational status. The app leverages the power of AI to provide "real-time" solutions by considering factors such as user electricity consumption, weather conditions and electricity prices.

Can a sunhome battery be charged during a blackout?

The battery has an IP66 ingress rating. Rated output power in backup mode (all models) is 6kW. It's not clear if the battery can be charged during a blackout with a home's solar power system. Monitoring is via the Esy

Sunhome App, which the firms says also allows for complete control over the battery's operational status.

### Press Release

ESY SUNHOME 5kWh Battery: Ultimate Safety with Five Layers of Protection. Revolutionizing Small Business Energy Solutions: ESY SUNHOME's HM6 Single-Phase Storage System. Coupling Technology - One of the Core Advantages of ESY SUNHOME Single-Phase Residential Energy Storage Systems.

## Energy Storage as a Service (ESaaS): A New Model for Homeowners

ESY SUNHOME can leverage this model by integrating its existing storage technology, helping users enter the energy storage market with a lower barrier. For example, homeowners can choose ESY SUNHOME's HM6 or HM12 storage systems and pay a fixed monthly subscription. Based on the user's energy needs and system capacity, the setup dynamically
