Ivory Coast honeywell ess

Overview

What is Honeywell doing with ESS Tech?

Honeywell announced a strategic collaboration with ESS Tech, Inc. to advance technology development and market adoption of iron flow battery energy storage systems.

What is Honeywell ESS?

Honeywell is Enabling the Energy Transition through Technology Breadth and Expertise As a global technology leader, the every-day mission of Honeywell ESS is creating future-forward solutions that change the way the world works. The inventors, chemists and engineers of Honeywell are continually pushing technological frontiers.

Why did Honeywell invest in ESS?

Honeywell has made an investment in ESS as part of this collaboration. The relationship builds upon each company's development of energy storage systems, and brings together ESS' market-leading, patented IFB design with Honeywell's advanced materials and energy systems expertise.

Why is Honeywell partnering with ESS?

Honeywell and ESS are working together to meet growing global demand for long-duration energy storage (LDES), driven by the rapid increase in renewable power generation. This is creating a substantial and fast-growing market as countries worldwide transition to zero carbon energy.

Is Honeywell reselling ESS products?

Under this new partnership, Honeywell will also be buying and reselling ESS products as part of its broader offerings to the market, essentially "combining our long-duration energy storage solutions with their control software services offerings," Eric Dresselhuys, CEO of ESS said during a webcast Monday.

Will ESS take control of Honeywell's intellectual property?

ESS expects that this will open up incremental market opportunities, segments and use cases for the company, Dresselhuys said. In addition, ESS will be taking control of Honeywell's intellectual property related to flow batteries.
