Case Study

About Ixora Energy. Ixora Energy is a UK-based business, with a team of 38 experts who have been supplying a full range of anaerobic digestion (AD) management services to customers across the UK and Republic of Ireland since 2010. Owned by Downing LLP, a city of London institutional investor in green energy, Ixora has worked with five different

Ixora Energy anaerobic digestion firm rebrands to ENGIE

The facilities at Gorst Energy in Clyst St Mary, Condote Biogas in South Molton, Sustainable Energy Generation in Somerset, and Rainbarrow Farm in Dorset will now operate under the ENGIE brand. These biomethane plants convert local agricultural feedstocks, food production by-products and sustainably grown crops into renewable gas and electricity.

Gorst Energy Switches to Green D+

Gorst Energy Ltd's anaerobic digester produces green energy from biogas. The energy it produces is sufficient to heat 4,600 of Exeter's homes with gas and power and 2,300 of Exeter's homes with electricity. Whilst we are a significant
