Jaeger-LeCoultre Reinterprets the Master Ultra Thin Power Reserve

The Master Ultra Thin Power Reserve is equally recognizable, with the distinctive design of the power reserve display complemented by date and small seconds indicators - the three complications bearing witness to the complexity of the caliber and the technical savoir-faire of Jaeger-LeCoultre's watchmakers.

Master Ultra Thin

The Master Ultra Thin watch collection epitomises Jaeger-LeCoultre's philosophy of uniting technical virtuosity with timeless aesthetics. It reimagines traditional complications with designs that feature rich, clean lines. The entire collection showcases our

...

Jaeger-LeCoultre debuts two new Master Ultra Thin watches

Jaeger-LeCoultre kicks off 2024 with two new Master Ultra Thin watches: the Master Ultra Thin Tourbillon Enamel and a Power Reserve. The Power Reserve model is powered by the revised Calibre 938, which gets an increased power reserve of 70 hours and maintains its original 4.9mm thickness with the use of silicon components.

Review of the The New Jaeger-LeCoultre Master Ultra Thin

Jaeger-LeCoultre would like to remind you that it's not just all about the Reverso in Le Sentier. Case in point, a subtle update to the Master Ultra Thin Power Reserve reminded me how the company that used to be nearly everyone's go-to movement supplier hasn't stopped making technical improvements to its great watches.
