Overview

What does NOMAC stand for?

Founded in 2005, NOMAC, the First National Operation & Maintenance Company, provides high quality Operation & Maintenance (O&M) services for production of electricity and desalinated water worldwide. NOMAC is a wholly owned subsidiary of ACWA Power.

Who is NOMAC?

NOMAC is a wholly owned subsidiary of ACWA Power. We have sites in more than 10 countries, operating all across the Middle East & North Africa; Republic of South Africa, Eastern Europe and Vietnam. Our prime areas of Operation are in Production of power, Water Desalination projects, regionally & globally.

Who owns NOMAC?

NOMAC is a wholly owned subsidiary of ACWA Power. Subscribe to our weekly and three thematic newsletters (water and wastewater treatment, digital, and utilities & water security), and receive the latest and most engaging water-related news right to your inbox!.

What is Jamaica's energy source?

This page is part of Global Energy Monitor 's Latin America Energy Portal. Oil and natural gas continue to supply most of Jamaica's energy, supplemented by significantly smaller contributions from renewables. As of 2020, nearly 89% of electricity was still generated by fossil fuels.

What is NOMAC doing with hassyan energy?

NOMAC signed O&M agreement with Hassyan Energy to operate the Hassyan clean coal power project that is set to deliver 2,400 MW net power capacity, using ultra-super-critical technology with an aim to create an environmentally friendly energy mix including 7% target from coal.

Is Jamaica following the National Energy Policy 2009-2030?

Jamaica is currently following the National Energy Policy 2009-2030. Jamaica's December 2020 update to its NDC (Nationally Determined Contribution) aims to reduce greenhouse gas emissions by more than 25% relative to business as usual levels by 2030, with the majority of reductions coming from the energy sector.
