Who is Noriker power?

Noriker Power develops assets from inception through to operations and revenue generation. We are a vertically integrated developer and service provider, which we see as the solution to drive efficiency and quality in the fast-growing energy storage sector. Konik Mobile Batteries have successfully supported Coldplay's world tour.

Who is Noriker?

Noriker was one of just two companies in the UK to go live at the launch of National Grid's challenging Dynamic Containment service in September 2020, thanks to our innovative approach in the design and implementation of our proprietary control system.

What is the Noriker power graduate scheme?

Launch your journey to success with Noriker Power's Graduate Scheme, designed to give you a head start in the industry. Experience hands-on projects, expert mentoring, and a pathway to a fulfilling career. Become a part of our talented team! The roles are permanent in-office or hybrid positions.

Why did Noriker build a longer duration pure battery facility?

In March 2019, Noriker commissioned a longer duration pure battery facility located in the heart of the West Midlands. The project design was responding to changing market conditions that envisaged a greater role in Asset Optimisation and the Balancing Mechanism, partly due to a fall in DFFR prices.

What happened to Noriker?

With our trading desk completed, the team began 24/7 operations, marking the final stage of Noriker's vertical integration ambition. In March 2019,

Noriker commissioned a longer duration pure battery facility located in the heart of the West Midlands.

Why should you work at Noriker?

At Noriker, we're passionate about creating inclusive workplaces where everyone can be themselves and contribute to the fullest of their ability. For us, that means supportive teams and strong relationships where the focus is on everyone's contribution, where distinctions are based on professionalism, personality and commitment.
