### Mobile emissions control , Johnson Matthey

The internal combustion engine (ICE) will still play a large part in the global powertrain mix for many years to come. As road transport evolves to include growing shares of zero emission vehicles (ZEV) such as battery electric vehicles (BEV) and fuel cell electric vehicles (FCEV), this transition will happen alongside the need for cleaner ICE vehicles, especially in areas more ...

### Axeon Rebrands as Johnson Matthey Battery Systems

Axeon brought its applications engineering expertise in battery systems to Johnson Matthey, strongly complementing Johnson Matthey's existing materials science and research and development expertise.
