

## European Solar Energy Storage

# Juan energy storage engineer salary

## Overview

---

The average salary for an Energy Storage Engineer is \$202,752 per year or \$97 per hour in United States, which is in line with the national average. Top earners have reported making up to \$344,046 (90th percentile).

The average salary for an Energy Storage Engineer is \$202,752 per year or \$97 per hour in United States, which is in line with the national average. Top earners have reported making up to \$344,046 (90th percentile).

Knit People EOR Payroll -

When evaluating annual salaries across different engineering disciplines, energy storage engineers generally fall within a competitive range. For example, electrical engineers average between \$80,000 and \$120,000, while mechanical engineers often earn approximately \$80,000 to \$110,000.

Using data from over 20,000 candidates in the Storm4 database we have put together a comprehensive picture of GreenTech salary and remuneration trends in the Energy Storage sector.

The average energy storage engineer gross salary in United States is \$114,545 or an equivalent hourly rate of \$55. In addition, they earn an average bonus of \$4,181. Salary estimates based on salary survey data collected directly from employers and anonymous employees in United States.
