

## European Solar Energy Storage

# Kuwait etmt energy

## Overview

---

What is Kuwait Energy Outlook?

The platform came in the form of Kuwait Energy Outlook, an energy policy platform supporting efficient coordination between the energy sector stakeholders that assures coordination and robust development among them to realize the country's domestic and international responsibilities operated and managed by national capacities.

Will Kuwait increase the share of renewables in energy demand?

Kuwait has a soft target of increasing the share of renewables in total energy demand to about 15% by 2030, up from less than 1% today. The potential for increasing the share of renewables in the electricity generation mix in Kuwait is huge, given its substantial solar and wind resources. Central Statistics Office,

What happened to Kuwait Energy?

Figures based on GCA reported number as at 31 December 2014 and reflects Kuwait Energy's 100% WI in BEA post 25% WI acquisition from Gharib Oil in June 2015. Kuwait Energy has withdrawn from Block 43, effective 30 June 2015. Source: Wood Mackenzie. Source: IEA, Iraqi Oil Ministry. Snr. Vice President Strategy & Portfolio.

How much energy does Kuwait use?

Kuwaiti citizens account for 30% of the total population, but they use about two-thirds of the total amount of energy consumed in the country. Average temperatures hover in the upper 40s Celsius during summer months. Over the past few years, these "summer" months have extended from April to October.

Will oil demand increase in the transport sector in Kuwait?

Oil demand in the transport sector in Kuwait is projected to increase by 3%

per year from 2015 to 2035. According to the International Energy Agency, the growth rate in global transport oil demand will be dramatically lower, 0.6% per year in the period to 2040.

How can we improve energy data collection in Kuwait?

This could be facilitated through more coordination and collaboration between energy players within Kuwait and improving the institutional capacity for data collection. The lack of collaboration and expertise contribute to long delays in receiving feedback and data from energy entities. The situation, however, is expected to improve.
