[Solar Generators - Intel Solar](#)

A solar generator is a compact electronic box which has three components integrated together. There are the charge controller, batteries and an inverter. Strangely though there is no solar component in the solar generator. The solar panels need to be purchased separately. In reality, the solar generator is just a battery-powered generator.

Top Solar Generator Suppliers in Latvia

A solar generator is a portable generator that usually works along with solar panels. It typically

acts as an automatic backup battery to power your home and your household appliances and/or electronic devices when you run out of electricity due to power outages.

EcoFlow DELTA 2 Solar Generator (Rigid PV100W)

Pair with solar panels and charge in as fast as 3-6 hours with 1x400W, 2x220W portable solar panels. With its MPPT (Maximum Power Point Tracking) smart algorithm, DELTA 2 can actively detect the voltage and current in real-time to reach the maximum power point with >98% efficiency. That means a more efficient charge than other brands.
