Delta Pro (2nd DP or Extra battery) : [r/Ecoflow_community](https://www.reddit.com/r/Ecoflow_community)

My main question is that I'm debating if I should

buy the delta pro extra battery for the extra kwh or if I should get a second Delta Pro with the double voltage hub to get 240v. My stove and water heater, and furnace are all gas so I don't have a huge need for the 240v. I'm more concerned with having longer overall run time for essentials

Delta Ultra + Smart Home Panel 2 Installed

Hi all - I just had the smart home panel 2 installed 72 hours ago and have been observing the behavior of that coupled with a delta pro ultra (inverter and one battery). I believe I have everything configured correctly on the app and all the latest firmware applied.

Using a LiFePo battery to charge Delta Pro : ...

The ecoflow DC in can be wired directly to the battery. You should ensure the battery has a BMS because the ecoflow will empty the battery completely. Discharging too much is bad for the battery and a decent BMS should protect the battery against too deep discharge. You cannot directly charge the battery from the ecoflow without additional HW.
