40 ft container

Overview

Guernsey Electricity Limited (GE) is the sole commercial electricity supplier on the island of . GE has been operating for over 100 years, moving from local generation of power from coal, and later oil, to investing in cables to connect into the grids in and through the .

Who owns Guernsey power company?

The company is owned by the States of Guernsey with the Guernsey Competition and Regulatory Authorities (GCRA) regulating our core business of electricity generation, conveyance and supply. The Board is made up of three Executive Directors, five Non-Executive Directors and a Non-Executive Chair.

Will Guernsey's new electricity strategy come after a long-term deal?

A leading businessman has criticised Environment and Infrastructure's (E&I) new electricity strategy for Guernsey. Jon Moulton said the strategy should come after a long-term deal on power supply has been signed with French energy suppliers. The current deal for electricity supply with French energy supplier EDF is set to run out in 2027.

When did Guernsey Electricity become a company?

In 1993, Guernsey Electricity was adopted as the trading name, and in 2001 became Guernsey Electricity Ltd following commercialisation. In 1998, the Channel Islands Electricity Grid was established to operate subsea cables supplying electricity from Europe giving a secure, reliable and affordable source of energy.

Does Guernsey have electricity?

The company is the sole licenced distributor of electricity to Guernsey with over 94% of the island's energy being supplied through the subsea cables while at the same maintaining sufficient on-island generation capacity.

Is a small windfarm a good idea for Guernsey?

He said the E&I proposals for a small windfarm off Guernsey would be very expensive, and in his opinion "not a good idea". Environmentalist and Chamber of Commerce board member Rupert Dorey believes E&I's preferred plan is the best for Guernsey.
