

## European Solar Energy Storage

# Luxembourg lina energy

## Overview

---

What is Lina energy?

LiNa Energy is helping the energy sector accelerate the transition to Net Zero, through our safer and more sustainable alternative to lithium ion. We are leading the charge to develop and commercialise low-cost solid state sodium batteries, with a focus on the renewable energy storage market.

How does Lina energy storage work?

On discharge, the sodium is oxidised back to sodium ions and travels through the conductive backbone, recrystallising in the cathode. LiNa's energy storage systems take a radical approach to thermal management, providing customers with low-cost and high performance energy storage even in high ambient temperatures.

How did Lina energy get a £815k grant?

LiNa Energy is delighted to announce it has secured investment to further support scaling of the company. Jacob Wolff-Petersen led the round, which comprises £2.7m of equity and £815k grant from the Future Enterprise Investor Partnership administered by Innovate UK.

Who are the Lina energy executive team?

LiNa Energy Executive Team (7) Update this profile

Name	Title	Board Seat
Gene Lewis	Ph.D Chief Executive Officer & Director	Contact Info
James Morrish	Chief Financial Officer & Board Member	Richard Dawson
Richard Dawson	Ph.D Co-Founder, Chief Technology Officer & Board Member	Mark Boland
Mark Boland	Co-Founder, Company Secretary & Board Member	William Tope
William Tope		

What is Lina battery?

The company commercializes a safe, high-performance, low-cost, solid-state sodium battery technology targeted at stationary storage applications, thereby helping users to accelerate global efforts towards net zero and

delivering high-performance, safe, and cost-effective battery energy storage.
