8 things to know before traveling to Madagascar

Instead of relying on the wildly inaccurate wildlife promises of Disney's Madagascar animated films, buy yourself a field guide to the wildlife of Madagascar, and start choosing what it is you really want to see, and where you have to go to see it.

Madagascar

This isolation allowed native plants and animals to evolve in relative seclusion; as a result, Madagascar is a biodiversity hotspot and one of the world's 17 megadiverse countries, with over 90% of its wildlife being endemic. The island has a subtropical to tropical maritime climate.
